

MAINTENANCE PROPOSAL

To: _____

Re: Landscape Maintenance at: _____

This gardening program is meant to be **ALL INCLUSIVE** with no regular extra charges. Plowboy will guarantee a specific number of man hours per week, and the customer can request any list of duties **without extra cost.**

- ❖ **Plowboy only maintains large facilities, with full time gardeners.**
- ❖ **Each site has its own gardening tools stored at the location**
- ❖ **A Plowboy supervisor will visit each site everyday to manage and communicate**
- ❖ **We will repair sprinklers, fertilize, spray, install new plants - At no extra cost. We charge extra only for mainline related repairs. We have no incentive to charge extras.**
- ❖ **We believe that a garden must be renovated as part of the normal maintenance. The owner pays only for new materials, the on-site gardeners provide the labor. If a garden is not being improved, it is deteriorating .**
- ❖ **Full time on-site gardeners develop a sense of pride, ownership and familiarity which is lacking in “mow & blow” crews.**
- ❖ **Each month the owner (Doug Wasson) or the supervisor (Colin Anderson) will conduct a site inspection with the owner’s representative and provide a written report which gives direction. We like to develop projects to improve the site.**

The client knows better than we do as to about how many hours a week is enough to service a property, given adequate supervision and work ethic.

Therefore, **Plowboy presents a range of cost & time alternatives.**

Our basic charge is about \$22.50 *ALL INCLUSIVE* an hour for a 173 hour average month.

PRICE:

Our program is a bit different and requires a personal explanation of its aspects.

Please let me know when I can meet with you to fill in the details.

Sincerely,

Doug Wasson
